In this world there is room for everyone. And the good earth is rich and can provide for everyone. The way of life can be free and beautiful, but we have lost the way. Greed has poisoned men's souls, has barricaded the world with hate, and has goose-stepped us into misery and bloodshed. We have developed speed, but we have shut ourselves in. Machinery that gives abundance has left us in want. Our knowledge has made us cynical. Our cleverness, hard and unkind. We think too much and feel too little. More than machinery we need humanity. More than cleverness we need kindness and gentleness. Without these qualities, life will be violent and all will be lost. Soldiers! Don't give yourselves to brutes men who despise you enslave you who

P.T.O.

regiment your lives tell you what to do what to think and what to feel ! Who drill you diet you treat you like cattle, use you as cannon fodder. Don't give yourselves to these unnatural men machine men with machine minds and machine hearts! You are not machines ! You are not cattle ! You are men ! You have the love of humanity in your hearts ! You don't hate ! Only the unloved hate the unloved and the unnatural ! Soldiers ! Don't fight for slavery ! Fight for liberty ! You, the people have the power the power to create machines. The power to create happiness ! You, the people, have the power to make this life free and beautiful, to make this life a wonderful adventure."

IV. Read the following passage and answer the questions set on it :

Science has been defined as a body of knowledge. But that means about as much as saying that you find all the works of Shakespeare in the dictionary because all the words are there. One of the things which blocked scientific progress for nearly two thousand years was the ideas that the Greeks had the last word for it, that knowledge existed. And such knowledge, untested by experiment, could be adapted or interpreted to suit the beliefs of the times, or to conform to doctrine. A "body of knowledge" unchallenged and unreplenished goes sick and may start off as that exercise of observation and reason which we call astronomy, the charting of the stars in their courses. No, science is not just knowledge, it is knowledge working for its living, correcting itself, and adding to itself.

1) How has science been defined traditionally ?   1

2) How does the writer clarify the fact that the traditional definition of science is narrow ?   1

3) What was the effect of the narrow definition of science ?   1

4) In what way is astrology and astronomy similar ?   1

5) The writer's purpose in writing this piece is to   1

   a) Express himself.

   b) Explain something.

   c) Convince readers.

V. 1) Choose the correct homophones to complete the sentence :   2

   a) The kitten scratched me with its _____. (paws/pause)

   b) Our company's guiding _____ is trust. (principal/principle)

2

2) Choose the correct synonym for the underlined word.

a) The <u>cost</u> of the book was too high.

   i) expense   ii) charge   iii) payment   iv) price

b) There is <u>dearth</u> of suitable candidates for principal's post.

   i) Death   ii) Expensive   iii) Scarcity   iv) Surplus.

c) Choose the correct form of the verb given in the brackets :   **1**

The people _____ before the chief minister arrived. (had arrived, arrived)

VI. A) Do as directed :

   1) What enquiries would you make in the following situation ?   **1**

     You want to know the reopening date of the college.

   2) How would you introduce yourself to the prospective employer ?   **1**

B) Fill in the blanks with appropriate article/preposition and verb :   **3**

There is _____ urgent need _____ law and order in society. Otherwise the society is going to be ____ (doom) soon.

C) Fill in the blanks with the appropriate tense form of the verb given in the brackets :   **3**

   1) My sister (go) _____ to the college everyday.

   2) I _____ (live) in Bangalore since 2000.

   3) I saw two policeman _____ (chased) a thief.

VII. Develop a short story using the hints given below and suggest a suitable title for the same :   **4**

Two women claim the same child – no witness – difficult to decide – go to king – demand justice – child to be cut into two parts – the first woman quiet – woman falls at the king's feet – prays don't cut – agrees – king's judgment – real mother – the other woman punished.

VIII. Write an essay on **any one** of the following topics in about a page : 4

   a) Pollution its causes and solution.

   b) Student participation in politics.

IX. Summarize the following passage in about **120** words and give a suitable title : 4

Today, the craze for advertisements of manufactured goods is on the increase. The act of advertisements is, in fact, a modern development. It has revolutionized the modern trade. Modern life is highly complex and mechanical. People have no time to go into the soul of things. They want to buy advertised goods. The manufacturer, in his turn, wants to popularize his goods before they are manufactured. Such is the craze for advertised goods. We are living in the age of advertisement. No wonder one sees shining and multi-coloured bill-boards hung on poles displaying goods advertised. There is a spate of magazines and journals which spare pages for the latest variety of goods manufactured. Radio and television are humming with advertisements of new products. Advertisements hold the sway and no manufacturer can do without it. A thing may not have intrinsic value but it must be well advertised. We live in a glamorous world of advertisement.

b) Read the following passage and answer the questions below :

It is ironic that even though wild animals are way stronger than humans, they are facing a dark void of extinction due to human activities. Wild animals are one of the most important elements in preserving a nation's natural environment. However, human greed and interference through poaching have caused a worldwide risk in the existence of wild animals. Wild animals like tigers and elephants, generally known for their toughness, have evolved

with features like thick fur, strong teeth, and bones for their survival. However, it is quite surprising that people are taking advantage of these features by killing them and selling their body parts in the market to earn money. This has unknowingly led to a decrease in their reproduction and hence put them on the endangered list. If proper steps are not taken to preserve the wild animals, very soon they will face the risk of extinction.

1) Read the meanings below, find one word from the passage to replace the description :   **(3×1=3)**

   a) no longer in existence.

   b) the catching and killing of animals without permission on someone else's land.
